Curtain Systems – custom made vinyl, insulated and strip curtains

REDUCE REEFER RUN TIME

Vinyl

The Universal Window Curtain Kit includes:

- All mounting hardware adjusted to fit the width of any trailer
- Both E-Strap and Velcro tie backs
- The curtain length can be trimmed to fit any inside height of trailer
- The window in the Universal Curtains allow light into the vehicle improving safety and visibility.
- Universal fit curtain available for Roll-up door, swing door or side door applications.
- 18 oz blue vinyl center opening, each curtain panel roller mounted for easy operation
- Velcro closures for secure seal
- Multiple configurations including track mounted, moveable bar mount and slide to open
- Options include solid or with clear view windows as shown here
- Chain weighted at the bottom to prevent "sailing"
- Durable 40 oz vinyl skirted bottom
- A wide variety of mounting options and hardware available

Strip

Strip curtains can be made to order or ordered in bulk rolls.
Strips are flexible to -40°F and USDA approved.

Systems available:

- Permanent mount to side or rear door
- Portable mount to load bar or clips with pin for use in various trailers

Insulated

Insulated curtains provide an effective barrier to prevent cold air loss, ideal for trailers during dock pre-cooling, loading and unloading. The insulated curtain's core is 1" thick bonded fiber. The insulated curtains are weighted with chain at the bottom to prevent "sailing." Made from lightweight, woven nylon fabric that is coated to repel water.
